Introduction

Hola Folks!

As you know, this is Tamanna. I am an enthusiastic and passionate engineering student in my final year of undergrad, have consistently demonstrated a commitment to academic excellence and a proactive approach to learning. Through various projects and internships, I have gained hands-on experience and look forward further to fueling my enthusiasm.

Through my Social, Entrepreneurial, and management skills with problem-solving abilities, teamwork, and eagerness to take on new challenges, I am always keen to expand my knowledge and skills. As I prepare to enter the professional world, I am excited to bring my dedication and innovative mindset to new opportunities and make a meaningful impact.

About Me

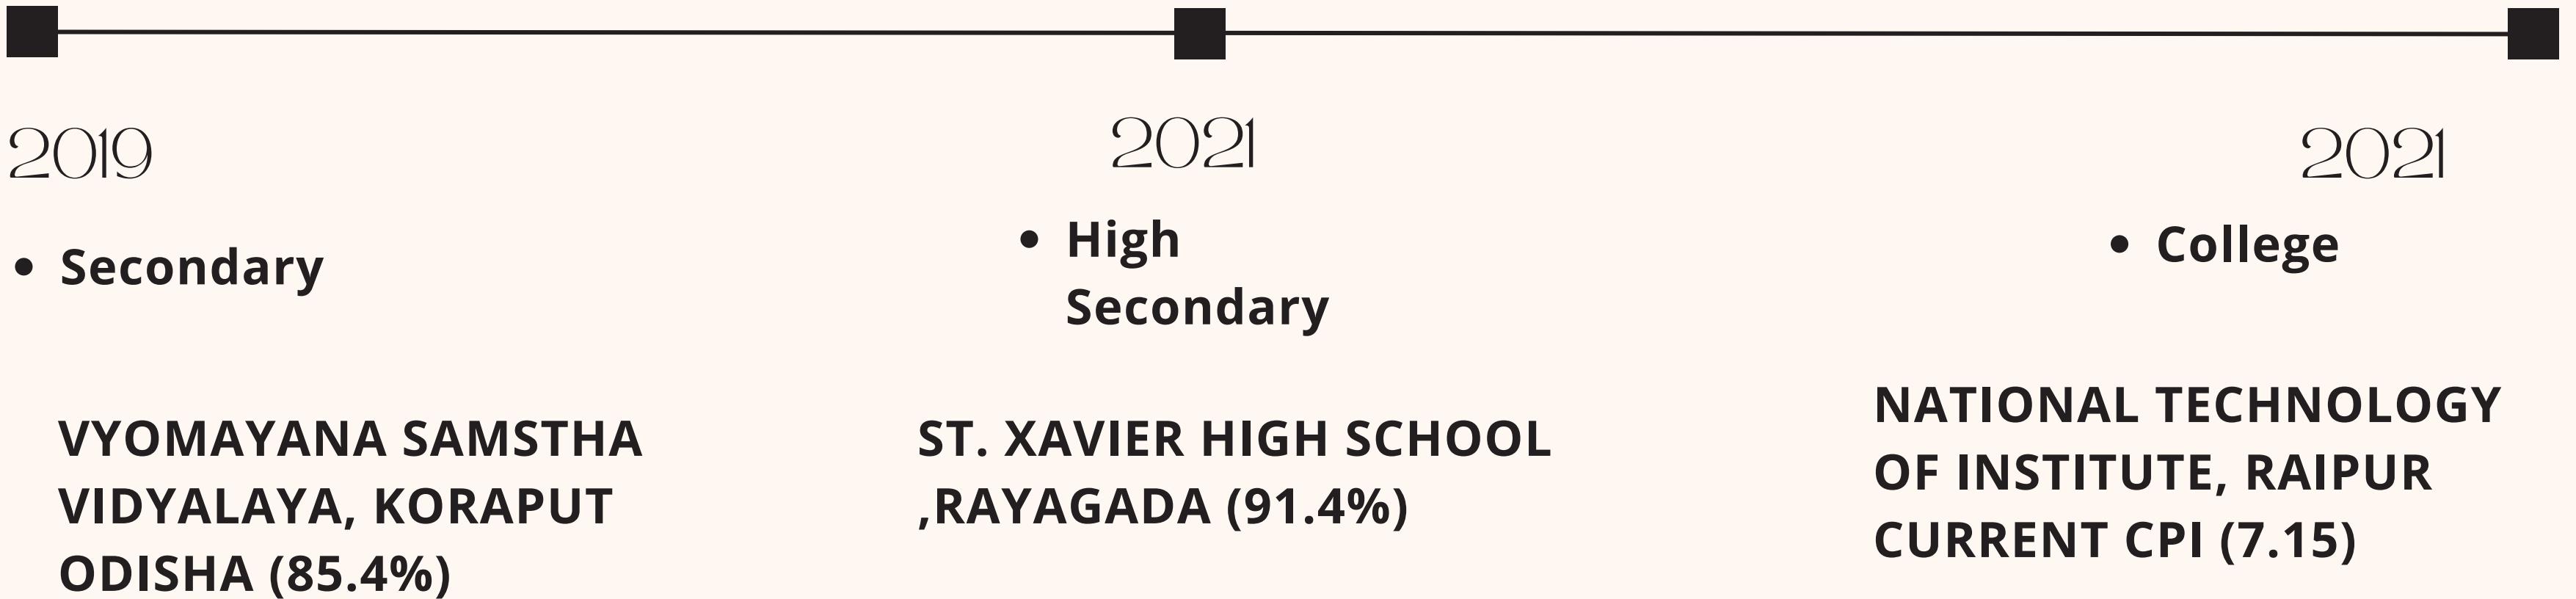

My Vision

To become a dynamic and innovative professional in Mining & Data Analytics, contributing to cutting-edge projects that drive progress and make a meaningful impact. I aim to leverage my academic foundation and passion for learning to excel in a collaborative environment that fosters growth and innovation.

My Mission

To continuously develop my skills and knowledge through hands-on experience, challenging projects, and mentorship opportunities. I am committed to embracing new challenges, staying adaptable, and applying my problem-solving abilities to deliver high-quality results in any endeavor I undertake. My mission is to contribute positively to my future team while continuously growing as a professional.

EDUCATION BACKGROUND

Position Of Responsibilities

01. Entrepreneurship Cell *(Overall Coordinator)*

Led one of the biggest events in entrepreneurship, E-SUMMIT, organized at NIT Raipur. Hosted major competitions including business case studies, startup expo, and worked in various domains such as Public Relations, Event Management, and Social Media Management. Key events: E-SUMMIT, ATL, MSME.

02. Click Club *(Overall Coordinator)*

Organized major photography events, including AURA and Pixellane, where I exhibited photos showcasing specific techniques and styles of photography. These events highlighted the diverse skills and creativity of photographers, providing a platform for both emerging and established artists to display their work and engage with a broader audience.

My Projects

≡

01. PIZZA SALES PREDICTION

The Pizza Sales Prediction project leverages SQL for data analysis and predictive modeling, focusing on improving marketing strategies, inventory management, and staffing through accurate sales forecasts.

Key elements include data cleaning, transformation, and visualization to enhance decision-making., inventory management, and staffing.

02. STORE SALES PREDICTION

The dataset contains extensive historical sales data analyzed using SQL to predict top-performing stores and products.

PowerBI dashboards were created to visualize trends, correlations, and key metrics, aiding in strategic business planning and targeted marketing efforts.

The project offers a comprehensive overview of sales trends, product performance, and customer behavior.

My Experiences
